Just Jeannette

We have asked Jeannette Copeland to write a special column for this publication. It will consist of answers to those of you who have problems. And in this day and age, who doesn't have a bothersome situation? We have selected Jeannette Copeland because of her wide experience and knowledge of today's youth. She can talk your language and know what you have to contend with as you face the tough realities of life that require sound thinking and control of the emotions. So, if you have something on your mind, write her a letter. State your situation simply and briefly. But give all important facts. There will be no personal replies. From your letters, one will be chosen to be answered in every issue of this publication.

Dear Jeannette Copeland:

To me I have a very serious problem. You see on Saturday last month, I went out on my first date. We went out to a party given by the Y. W. C. A. I suppose that the two of us had a good time, my date and myself. At least that is the way I feel about it. Well, after the party was over, he then took me out to dinner. When we came to my home, I thanked him for giving me a most wonderful and enjoyable time.

The next day I went over to my friend's home. Most of the girls were there. They asked me if I had kissed my date when he brought me home. And I told them no. So they then told me that I should be ashamed of myself. Because he had spent a lot of money on me. Buying me the flowers, paying for the tickets and for the dinner. I really didn't know what to say to my girls friends. How could I answer them?

Now I am asking you this question! Should I have kissed him on my very first date? He didn't seem very much disturbed about it. But if he was, then how can I tell him that I was very sorry? By the way, I am 15 years old.

Cordially yours,
Lynn R.

Dear Lynn R:

I think you may have heard that in another part of the world, the people there do not kiss each other. As a sign of affection, they rub noses. In another part of the world, it is considered terrible for a young girl to kiss a man.

And in the movies from this country, which I have seen, no kissing at all in the films you in any stage presentation.

What is the origin of kissing? According to one legend, the Roman husband home from a hard day looking over his vast estates. Or talking politics and war with his friends. He took one look at his beloved wife. She seemed unsteady on her feet. Maybe she was drinking? So he smelled her breath. His lips then got closer to her lips. And they say, that the lips met and thus was kissing introduced.

Now what does a kiss symbolize? A parent kissing a child, signifies affection. You may have seen in the movies or on a TV presentation, a general in another country giving a medal to a brave soldier. After he pins it on the soldier's uniform, he kisses the soldier on each cheek. This you can say is just a custom. Now when two people are in love, they do kiss each other. But why should you kiss your escort or why should he expect a kiss?

Is it a sort of "payment" in return for showing you a good time? If he enjoyed your company, then he will ask you out a second time, even if you didn't kiss him. And don't fool yourself for one minute about that kind of a kiss. If he gets that kiss the first time, his male intuition sort of tells him you have kissed others the same way. Are your girl friends trying to intimate that you are "old fashioned" or "not as yet grown up" because you didn't kiss your escort? And just as girls compare notes about their dates, so do the fellows.

There are many ways in which you can say something to the girls. One I like goes this way: "A moral good action never needs an explanation." Or perhaps, "You mean, you girls pay in kisses for going out?" I also suggest you show my answer to your mother and further discuss the situation with her.

Cordially yours,
Jeannette Copeland

HEAVY LEGS

TESTED AND PROVEN METHOD — ONLY 15 PLEASANT MINUTES A DAY!

This most encouraging news for women with fat, flabby legs was revealed by Henry Milchstein, M.S., Ph.D. If your legs are heavy due to normal causes, you should try to attain the slender, alluring legs you've always wanted. This well-known physiotherapist was President of the Metropolitan School of Physiotherapy. His record is enviable in helping lovely stage and screen actresses as well as women like yourself to mold beautiful legs. Over a

period of over 30 years, he used an amazingly natural method which is unsurpassed by anything we have ever seen. Thousands gladly paid high fees for his personal instruction here in New York City. Now it is possible for any woman to try this famous expert's method, requiring only 15 minutes a day, right in the comfort and privacy of her own home at a tiny fraction of this cost.

REDUCE HIPS, THIGHS, KNEES, CALVES, ANKLES for SLENDERIZED LEGS

How Your Individual Heavy Leg Problems Can Be Corrected By This Method

Ordinary Methods Found to Help Little in Slenderizing Heavy Legs

Many women engaged in improper strenuous exercises and calisthenics used up a lot of time and energy but it did next to nothing for concentrating on trimming down heavy legs. Other women actually tried reducing diets alone to slenderize heavy legs. Since a weight reducing diet cannot be made to take weight off any single part of your body, you may lose weight everywhere but in your legs. And if your legs lost a little weight, no drug or diet can normalize and firm the entire contour, which would remain flabby. This method does concentrate on slenderizing each section of your legs from the hips to the ankles.

A Technique Based on Years Of Professional Experience

This progressive scientific method for slenderizing heavy legs is based on the knowledge and experience of professionals including physiotherapists and famous body contour experts throughout the world. HEALTH CULTURE Magazine asked this authority on legs to write a series of articles on the fundamentals of this method so that their readers learn about this wonderful technique.

HEAVY LEG Sections That Need To Be Slenderized

Unslightly, bulging hips are often due to fatty layers and too much muscle tissue that stretch muscles surrounding the hip due to lack of enough activity.

Bulky muscle tissue and fat on outside thigh cause fat, lumpy, lumpy appearance here.

Bulging stretched muscles overenlarge size the knee, give a lumpy, swollen, ugly appearance in middle section of legs.

Too much muscle tissue here causes calf to look fat and awkward.

Fat, ugly ankles caused by improper muscle structure make base and shoes look ill-fitting and sad sight.

NORMAL LEG Sections We Aim To Achieve

After scientific slenderizing is attained, hip muscles become firmer, giving hips a better feminine shape and attractive line in clothing and allows entire leg to acquire slender, graceful curves.

Loose, fatty layers here cause embarrassing heavy, uneven, lumpy contour.

By following this special system, the extra muscle tissues here are helped to reduce, giving a smaller, slimmer appearance to this area.

Graceful, well-lowered ankles which we aim to mold by proper scientific training to catch any man's eye.

This scientific technique tends to normalize muscles and break down fat to give this area slimmer, more normal, more alluring look.

Normalized muscles around knee continue slender, attractive line of leg from thigh to ankle.

These specialized methods tend to reduce these excessive muscle tissue into the slender, truly feminine calf contour you want so badly.

HOW YOUR INDIVIDUAL THIN LEG PROBLEMS MAY BE CORRECTED BY THIS METHOD

Ordinary Methods Found to Help Little in Developing Skinny Legs

Many women engaged in improper strenuous exercises and sports to develop their legs. As a result they may build up some leg muscles at the expense of the rest of the leg causing their legs to look out of proportion. Other women tried drugs or diets alone to fill out their legs. Since a weight gaining diet cannot be made to add weight to any single part of your body, you may gain weight everywhere but in your legs. And if a little weight was added to your legs, no diet could strengthen and develop all the leg muscles to their normal shape and your legs would be left with flabby fat that would do little to give your legs shapely curves. This method does concentrate on adding shapely curves to each section of your legs from the hips to the ankles in normal proportions.

A Technique Based on Years Of Professional Experience

This progressive scientific method for developing thin legs is based on the knowledge and experience of professionals including physiotherapists and famous body contour experts throughout the world. THIN LEG Sections That Need To Be Developed

Poor hip tip development is often due to underdevelopment of the muscles surrounding the hip due to lack of enough activity.

Underdeveloped muscles of the entire thigh cause scrawny-looking legs here.

Underdeveloped calf muscles here cause calf to look thin and awkward.

This, bony ankles caused by improper muscle development make base and shoes look ill-fitting and sad sight.

Loose, thin muscles here cause embarrassing narrow thighs.

Thin, weak knee muscles don't give a normal shape to knee area and knees appear bony and ugly.

NORMAL LEG Sections We Aim To Achieve

By following this special system, these muscles are helped to fill out, giving a shapely curved appearance to this area.

Catch any man's eye with graceful, well-developed ankles which we aim to develop by proper scientific training.
